

Healthy Homes/Lead Poisoning Prevention Program

Mission: to improve the environmental health of residents and visitors of Saint Louis County through promoting healthy housing and eliminating the incidence and prevalence of lead poisoning for all who live in or visit Saint Louis County.

We offer:

- * Free *home inspections* for lead-based paint hazards for county residents (call for details)
- * *Participation in health fairs and community events*
- * *Community presentations* at/for:
 - Schools
 - Daycares
 - Churches
 - Community groups
 - Educators
 - Parents
 - Medical staff
 - Home inspectors
 - Other interested parties

Topics covered but not limited to:

- * *What is a healthy home?*
- * *Carbon monoxide*
- * *Mold*
- * *Radon*
- * *Indoor air quality*
- * *Home safety*
- * *Asthma education*
- * *Lead poisoning prevention*

We also provide:

- * On-site blood-lead testing for childcare facilities
- * Case management and care coordination for children with elevated blood lead levels
